About Us

KANOU has expanded globally since 2005 in a rapid pace

Established in 2005, we specialized in precision manufacturing with more than 20 years of industry experience

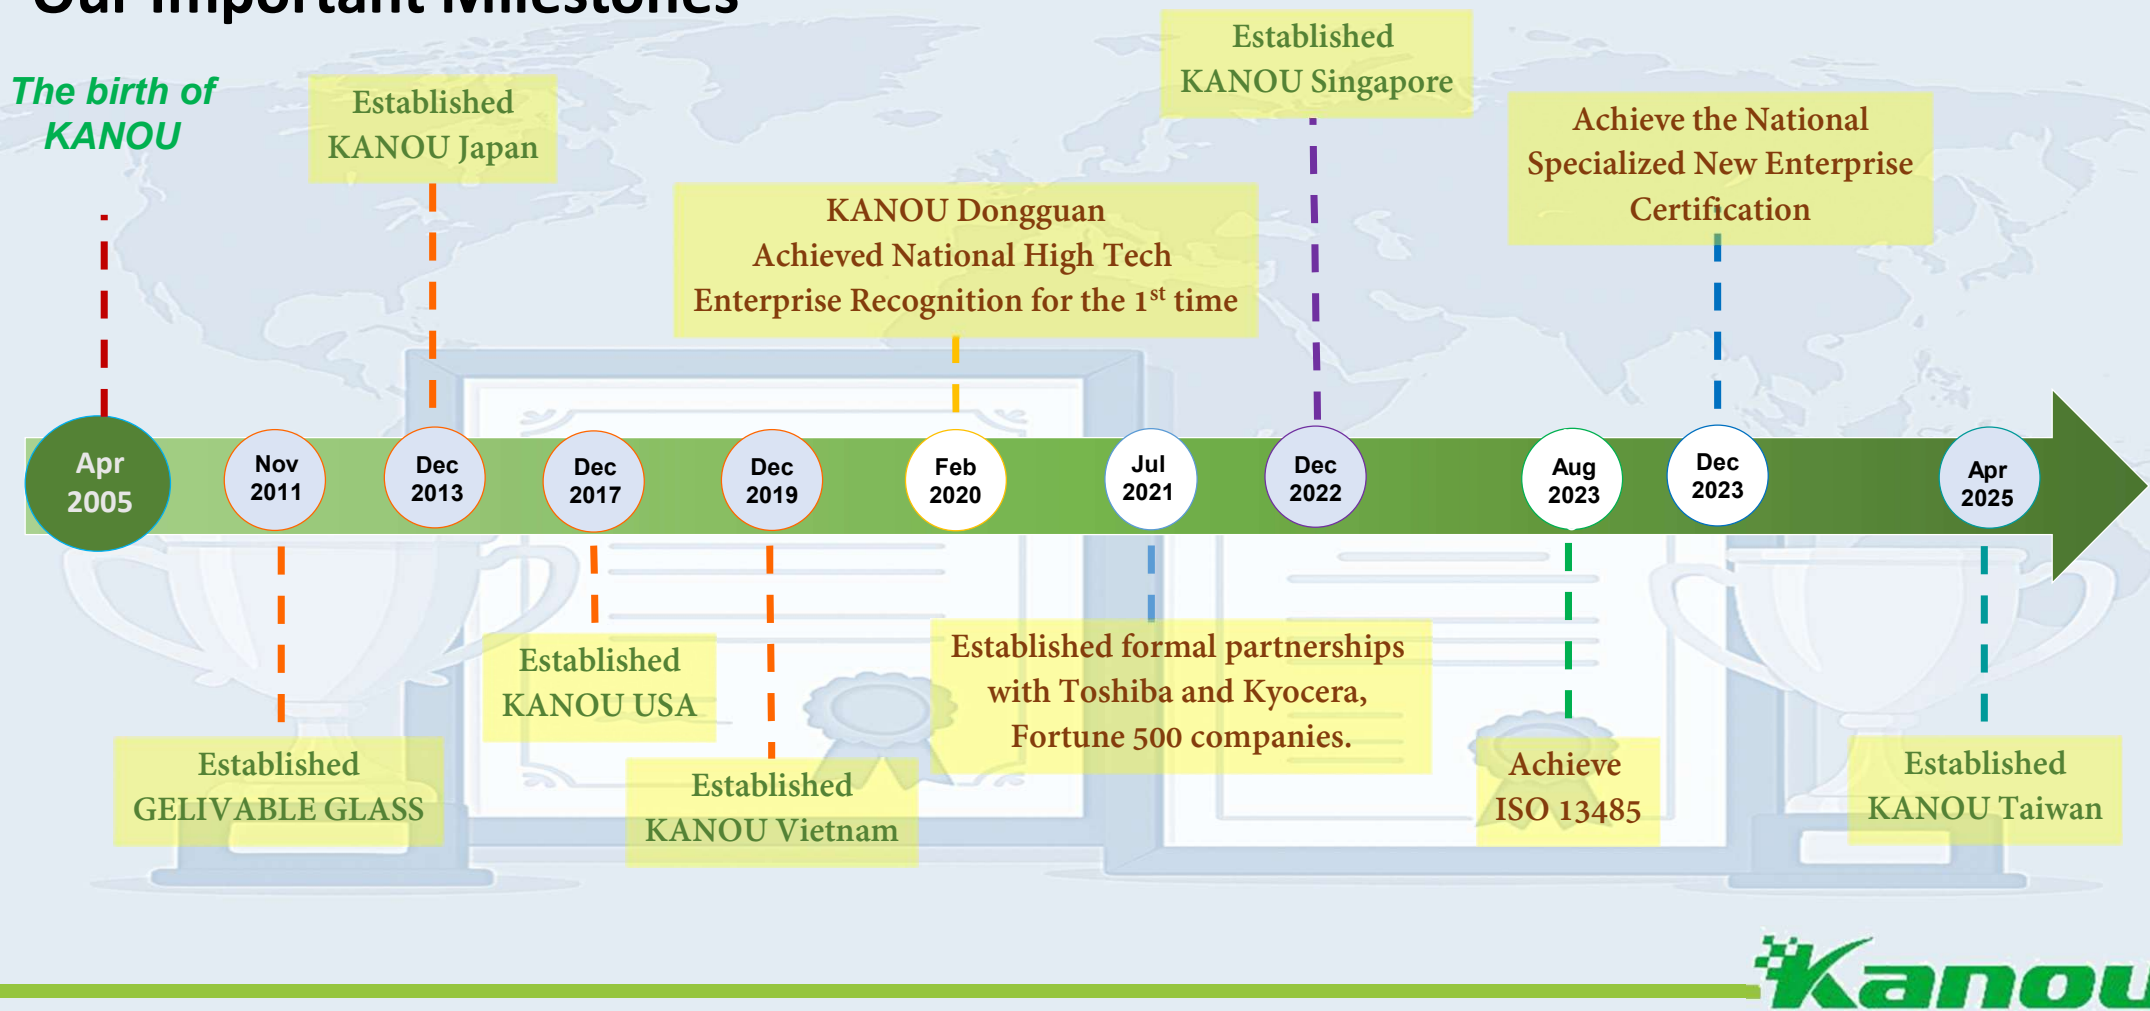

Global Presence: China, Singapore, Japan, Vietnam, HongKong

Expansion in 2025: Expansion into Taiwan to enhance our supply chain in the Touch/Display module & Semiconductor industries

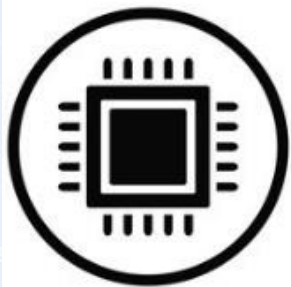

KANOU's Key Milestones in the past 20 years

Our Important Milestones

KANOU focuses in these industries

Our Focus Industries

Semiconductor –
>15 customers

New Energy –
>20 customers

Medical –
>50 customers

Industrial Automation /
Smart Home
> 60 customers

Transportation (Railway,
Aerospace, Maritime)
>25 customers

**KANOU serves 260+ customers,
including 20+ Fortune 500 companies**

We have a valued partnership with our Japanese customers

MITSUI & CO.
三井物産マシンテック株式会社

HOYA

OLYMPUS

TOSHIBA
Leading Innovation >>>

OKI

TOYOTA

HONDA

NISSAN

Crafting the Core

Kanou®

Our global revenue performance & across the industries we serve

Total Group Revenue in FY 2024 – USD 11 million

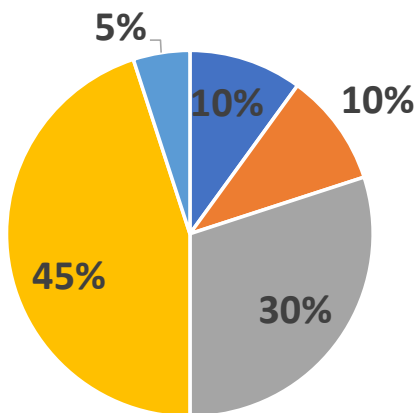

Target in FY 2025 - USD 13.8 million

Staff strength:

GELIVABLE GLASS – 80pax

KANOU PRECISION – 60pax

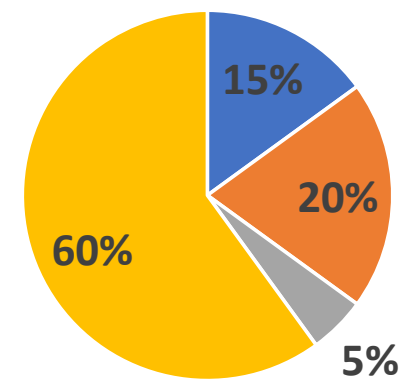

Revenue by Industry %

■ Semiconductor
■ Medical
■ Transport

■ New Energy
■ Industrial / Automation

Revenue by Region %

■ Europe/NAFTA ■ Taiwan ■ S.E.A. ■ Japan

Our Vision & Mission

KANOU endeavors to serve mankind & make the future better

Mission: To serve mankind with precision manufacturing and make the future better!

Vision: Committed to becoming the core force of global precision manufacturing!

Our Key Strengths

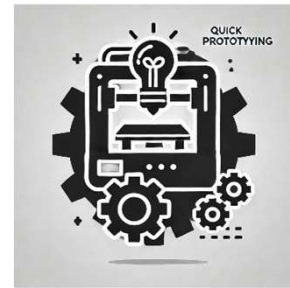

KANOU focus in High Mix – Low Volume

High Mix – Low Volume with Fast Delivery

📌 Supporting small-batch & flexible customized production for high-end industries

📌 Global supply chain & localized services to reduce procurement & logistics costs

📌 Inventory & flexible manufacturing ensuring fast lead times

KANOU emphasize in Japanese Quality

Japanese Quality Management & Expertise

- Core management team with Japanese quality expertise, benchmarking Japanese Pillar standards

- ISO 13485 & ISO 9001 certified, strictly enforcing quality control standards

- Full-process quality inspection, 100% outgoing inspection for reliability

- Cleanroom environment, strict control of temperature & particle contamination

Kanou®

KANOU has a strong Supply Chain ecosystem in Asia

Supply Chain & Logistics Efficiency

- 📌 Supply chain coverage in China, Japan, Vietnam, HongKong and Singapore, with Taiwan expansion in 2025
- 📌 Regional production to shorten lead times & enhance supply chain stability
- 📌 Multi-currency transactions, financial risk mitigation & optimized global sourcing
- 📌 Comprehensive supplier auditing for long-term stability

Global One-Stop Comprehensive Solution Provider in
Customized Components for
Commercial / Industrial Equipment

We cater to the customized, small-batch, and diverse needs of non-standard components, serving mid to high-end clients globally

Customized machined parts

- Applications Including but not limited to
- Ticket machines,
- automatic cash registers,
- vending machines,
- self-service ordering kiosks,
- Semiconductor Equipment
- security gates, security machines,
- financial equipment (ATMs, currency counting machines, etc.),
- 3D printers,

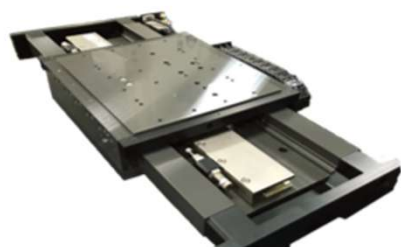

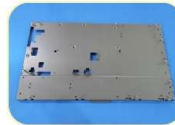

KANOU supplies customized & standard items to Transportation & Industrial/Commercial Equipment

Precise & reliable

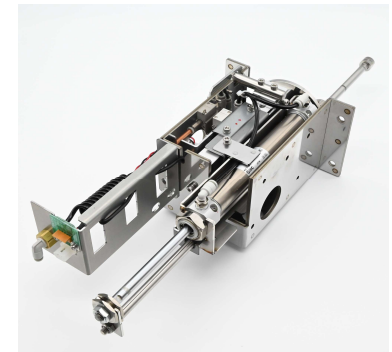

Type of supplies –

Customized parts from in-house production,
customized automation,
standard automation,
standard items,
consumables

High Precision Air Floating Motion Platform

High-purity
PFA connectors

We Want All The Displays in the World to be Glare Free

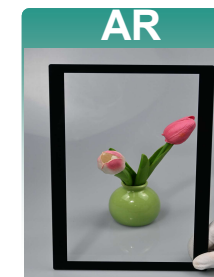

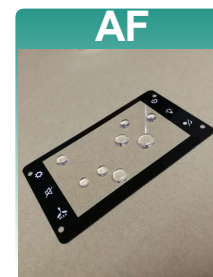

Raw Materials (0.2mm~4mm thick)

- High alumina silicate glass,
- Soda lime glass,
- High borosilicate glass

Surface Printing/ treatment

- Anti-Glare treatment
- Anti-Fingerprint coating
- Anti-Reflective coating
- Silkscreen printing

Bonding service

- 3M adhesive,
- Explosion-proof film
- Heat insulation film

Customized Touch Module & Various Display with Bonding

TOUCH SOLUTION

- Type: PCAP(Projective capacitive touch panel), Touch Key, RTP
- Sizes: 1.8"~ 65"

TFT DISPLAY

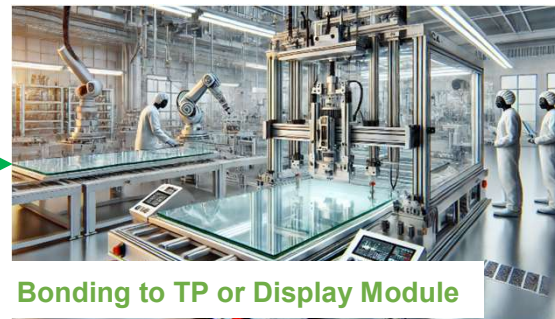

- Sizes: 1.77"~15.6"
- Fully automatic cell washing line, Fully automatic polarizer attachment line, automatic COG/FOG bonding line, AOI line
- Customizable LCD panel, backlight, interface

OPTICAL BONDING

- Product lines: OCA, LOCA, OCR
- Feature: OCA or silicone
- Sizes: 1.8"~ 32"

We can deliver in just 15 days & output up to 350kpcs a month

We have the ability to customize the Touch Module

Production - Sensors

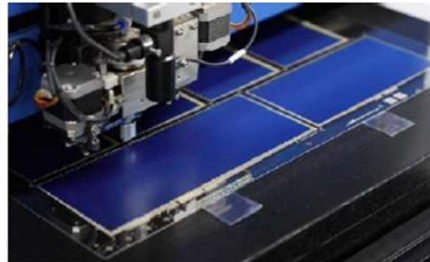

Automatic Cleaning Line

Printing

Laser

Cutting

Quadratic element measure

Functional testing

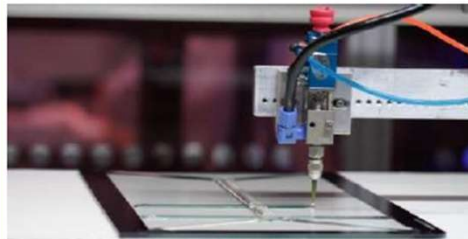

Production - Touch Panel

FOG

FOG Tensile testing

OCR

OCA

TP Functional testing

TP&TFT bonding

We supply to a wide range of applications with our glasses & touch/display modules

Automated Teller Machine

EV Charger with 4.0mm Soda lime glass

Our glass + automatic positioning laser engraving, micro precision of MinØ0.1mm

Touch module with Glass + multi color silk screen printing used in medical devices

Automotive Touch/display module with AG + AR + AF coating

Touch module with Seiko ink printed on glass for home appliances

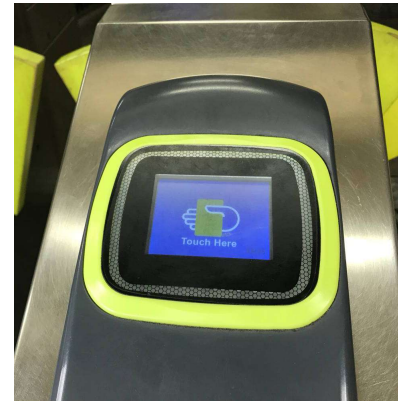

Our touch/display modules are used in nearly all transport services across Australia

Payment Terminals

Subway Card Reader / Vending Machine

Our Quality Promise

Why choose KANOU as your partner?

Let us build the future together!

Our Commitment to You

- ✓ **High Quality** - Certified to ISO 9001 & ISO 13485, 100% quality inspection
- ✓ **Fast Delivery** - Localized supply chain ensuring short lead times & efficient logistics
- ✓ **Flexible Customization** - Supporting non-standard & small-batch requirements, tailored to your specifications
- ✓ **Global Support** - Multi-language customer service & technical support, 24/7 response

Thank you!
